I LIKE

girls, movies about space, movies about New York, movies in general, books, bookshops with nice graphic books, kanelboller, metro, mezzanine beds, milk, fruits, cereals, December, purr, foxes, Felicity Jones, the taste of a glass of water after an ice cream, doing useless graphics, planning, doing what I didn't plan, listen to people I like, Bodoni, house hip-hop music some days, jazz music other days, F-r-i-e-n-d-s, Acne, searching for good books at flea market, collecting rocks, water, thinking the limitless possibilities, pizza, gummy candies, chocolate, sweet stuff in general, thinking about the light years between one galaxy and another, graphic design, physics, COS, the Adriatic Sea, fog or rain, lists.

I DON'T LIKE

wasting time, mayo, snails, turtles, start to feeling that it's gonna be a wrong day, celery, reading books, smoking, ads on spotify, pollution, AC/DC and Co, can't find an image on google when I was sure that it would have been easy to find an image like that on web, quiz shows, wasabi, Sundays, brown color, extinctions, waking up in the morning look at what I made the night before and notice that it wasn't as nice as I remembered, alcohol, cars, wasting water, newspaper titles, people who talks too much, having too much choices.
